## Project Experience

Development of a web Application

*DEC 2022-MAR 2023*

*DELIGHT- Tourism Management System*

As part of BCA project i worked in a team to develop a web Application using PYTHON,HTML, CSS Javascript and MySQL.signed to revolutionize the way to plan and manage travel experiences, our platform offers a seamless and comprehensive solution for both travelers and tourism industry professionals. With an array of user-friendly features and advanced tools, our website aims to streamline the entire process, from itinerary planning and accommodation bookings to ticket reservations and destination recommendations.

Key Features:

- Easy and fast package Analysis
- Effective communication
- Provides services to non-registered users also
- Simple and user friendly interface
- Tension free travelling all around India

## Mini project

The proposed project is a smart appointment booking system that provides patients or any user an easy way of booking a doctor's appointment online. This is a web based application that overcomes the issue of managing and booking appointments according to user's choice or demands.The project developed using Python HTML CSS and JavaScript and django framework
